To Jerry McKnight and Charles Kuhn from Harold Weisberg 11/12/88

Tapes of WBAI/ Pacifica Radio symposium on the CIA 10/88

The tapes of the three hours of the broadcast were provided by Ted Gandolfo. His voice is heard at the beginning of the first tape.

There then is a long introduction and identification of the participants followed by the Philip Agee presentation.

It is not all Agee, as the captions attached to the cassettes indic tes.

In addition to other former CIA officiers, like Stockwell, there is the other end/side represented by Menges, who served Nixon.

I've listened to only a little of the first side of th first tape.

I do not know whether all the Pacifica stations carried this program or whether other stations than Pacifica's carried it.
